

The Limon Education Foundation (LEF) is old enough to drive!

Dear Friend of the Limon Public Schools, we are proud to be in our 16th year of successfully supporting the Limon School District in educational projects and materials above and beyond those budgeted by the District. Educational needs are more prominent than ever, increasing in number and dollar amount. The LEF has supported funding of projects ranging from safety concerns to educational materials and technology upgrades, from music instruments, to support in athletic facility improvements. A complete list of funded projects is available on LimonEducationFoundation.org.
